

What is Kitchen Manager®

Kitchen Manager ® is the application that takes your kitchen to the future. It assists professional kitchen owners and managers to digitalize the use of the machines and troubleshooting.

Kitchen Manager ® is a new way of managing your kitchen machines. At any time you get an overview of your kitchen equipment and you can easily report needed reparations or maintenance, day or night. With **Kitchen Manager** ® you have access to all related documents as well as the service history.

Troubleshooting will always be reported to the right service company when using the **Kitchen Manager** ®. This is especially important when working with contractual service companies and authorized warrant companies.

Kitchen Manager ® is a new clear online service for professional kitchens, municipalities, property managers, kitchen managers as well as service companies specialized in professional kitchens.
